Council for Trade in Services
Special Session

Original: English

COMMUNICATION FROM THE DOMINICAN REPUBLIC, EL SALVADOR, HONDURAS, NICARAGUA AND PANAMA

The Cluster of Tourism Industries

The attached communication has been received from the Dominican Republic, on behalf of El Salvador, Honduras, Nicaragua and Panama, with the request that it be circulated to Members of the Council for Trade in Services.

In the discussion on the proposal for an Annex on Tourism (S/C/W/127), the sponsors have introduced the concept of “cluster of tourism industries”, based on the definition given by the World Tourism Organization to the Tourism Satellite Account (TSA) in the Nice World Conference (June 1999).

However, on 1 March 2000, the United Nations Statistical Commission, at its 31st session (New York, 29 February – 1 March 2000), decided that the TSA is comprised only by the set of tourism *characteristic* products, excluding the set of tourism *related* products from the agreed definition. “Tourism characteristic products” include those services which would cease to exist in meaningful quantity or those for which the level of consumption would be significantly reduced in the absence of visitors, and for which statistical information seems possible to obtain.

In this paper, our delegations present:

- (a) A detailed list of tourism characteristic products organized using the United Nations Central Product Classification (CPC) codes; and
- (b) The attribution of tourism characteristic services to the services sectoral classification used in the Uruguay Round (MTN.GNS/W/120).

The purpose of this classification is to ensure that a comprehensive treatment is given to tourism in the next round of services negotiations, as proposed in documents S/C/W/127 and S/CSS/W/9. This requires that our delegations use the definition agreed by all members of the United Nations in order to avoid lengthy discussions on classification. An additional advantage of this classification is given by its very focused nature, since it covers only the set of tourism characteristic products.

It is therefore our view that a comprehensive treatment for tourism can be achieved by referring to the set of tourism characteristic products as the cluster of tourism industries, without prejudice to the use of the cluster as the scope for new disciplines or for requesting additional specific commitments.

(a) *List of Tourism Characteristic Products.*

CPC/code	Title
63110.0	Hotel and motel lodging services
63191.0	Holiday center and holiday home services
