**SHARES OF WTO MEMBERS IN
WORLD NON-AGRICULTURAL TRADE, 1999-2004**

Note by the Secretariat¹

In response to a request by Members at consultations held on 11 November 2005, the Secretariat has prepared tables which show the shares of WTO Members in world non-agricultural trade from 1999 to 2004. Tables 1, 2 and 3 show the shares of WTO Members in world non-agricultural exports, imports and total trade (exports + imports), respectively. Average shares for the periods 1999-2004, 1999-2001 and 2002-2004 are also shown.

All data for individual economies were extracted from the UN Comtrade database on 1 November 2005. These data are based on national submissions. Figures for the European Communities refer to the extra-trade of its 25 member States.

World exports excluding significant re-exports were taken from the Secretariat's International Trade Statistics Report 2005. The figures were also used to derive import shares.

¹ This document has been prepared under the Secretariat's own responsibility and is not intended to prejudice the positions of any Members and to their rights and obligations under the WTO.

Source: UN Comtrade Database. Figures for World are WTO estimates.

a Excludes intra-trade of the European Communities and significant re-exports.

b Least developed country.

c Total exports of the European Communities were calculated as the sum of the individual member States based on national data. Extra-exports were then derived by subtracting intra-exports from total exports.

d Figures for Hong Kong, China refer to domestic exports.

Note: Data were retrieved in HS92 nomenclature, except for Fiji, Ireland, Kazakhstan, Maldives and Romania in 2004, which were in HS96.
